

REGARDING YOUR HEALTH INSURANCE:

Due to the number of insurance carriers with unique policies, **the staff of Dearborn Allergy & Asthma Clinic, PC cannot interpret your insurance coverage.** Based on the information available on your insurance card we may be able to offer general guidelines, but we cannot guarantee any information as being accurate to your specific policy.

It is your responsibility to understand your insurance policy and you should contact your insurance company prior to your appointment to clarify coverage limits, co-pays, deductible status, laboratory coverage, etc. to help you determine the amount you will have to pay at the time of your appointment. If you need procedure codes our staff will be willing to give them to you.

Thank you.
