

TO OUR PATIENTS:

Due to increased concerns and confusion regarding specific insurance coverage's for office visits and medical procedures, we can **ONLY** advise of possible insurance coverage. If there are questions, it is the patient's responsibility to contact their insurance company to determine exact benefits and deductible information. If procedure codes are needed, please contact our office and we will be happy to provide them to you.

Any lab and or diagnostic tests that we have ordered done should be performed at a participating lab or x-ray facility that accepts your insurance carrier.

If you are a member of an HMO you must contact your primary care physician for necessary referrals.

If you have a PPO insurance and require a CT scan, you must have a pre-certification approval and number for that procedure. To obtain this, contact our billing office and we will assist in obtaining this for you. This could take up to 48 hours depending on the particular insurance you may have.

Sincerely,

DEARBORN ALLERGY & ASTHMA CLINIC, PC
