BETA- BLOCKER INFORMATION

TO ALL PATIENTS RECEIVING IMMUNOTHERAPY:

If you are taking a Beta-Blocker medication, some of which are listed below, please let us know. The American Academy of Allergy, Asthma and Immunology has raised concerns regarding taking these types of medications while receiving immunotherapy. If you are not sure of the brand or generic name, please ask your pharmacist. These medications are members of a group of drugs call Beta-Blocking Agents. Please discuss this with your attending physician. If your doctor feels that changing to another drug is not desirable, please make an appointment with one of our physicians to discuss this problem.
